DBV Technologies' June 23, 2015 Combined Shareholders' Meeting

Adoption of all resolutions submitted to the vote of Shareholders

DBV Technologies, (Euronext: DBV – ISIN: FR0010417345 – NASDAQ: DBVT), a biopharmaceutical company, held today its Combined Shareholders' Meeting, which was chaired by Pierre-Henri Benhamou, the Company's Chairman and Chief Executive Officer, in presence of the Company's the Board of Directors and Executive Committee.

At the Combined Meeting, the Company's shareholders approved all the resolutions submitted by the Board of Directors. These resolutions can be found on DBV's website under the "Investor Relations" section.

During the Meeting, Pierre-Henri Benhamou, Chairman and Chief Executive Officer, and David Schilansky, Chief Operating Officer, presented the major events and financial results for 2014 as well as the most important events since the beginning of 2015.

About DBV Technologies

DBV Technologies is developing Viaskin[®], an innovative new approach to the treatment of allergies – a major public health issue that has been increasing in prevalence. DBV Technologies, incorporated in France in 2002, has developed a proprietary, patented technology for administering an allergen to intact skin while avoiding transfer to the blood, and thus lowering the risk of a systemic, allergic reaction in the event of accidental exposure. DBV Technologies is focusing on food allergies, including milk and peanut, for which there are currently no effective treatments. DBV Technologies has designed two products candidates: Viaskin[®] Peanut and Viaskin[®] Milk. The clinical development program for Viaskin[®] Peanut has received Fast Track designation and Breakthrough Therapy designation from the U.S. Food and Drug Administration.

DBV Technologies shares are traded on segment B of Euronext Paris (Ticker: DBV, ISIN code: FR0010417345) and on the Nasdaq Stock Market in the form of American Depositary Shares (each representing one-half of one ordinary share) (Ticker: DBVT). Disclaimer

This press release contains forward-looking statements, including statements about the potential safety and efficacy of Epicutaneous Immunotherapy (EPIT®) via Viaskin® Peanut and the regulatory pathway afforded by Breakthrough Therapy designation by the U.S. Food and Drug Administration, which does not change the standards for approval and is not a guarantee of success. These forward-looking statements are not promises or guarantees and involve substantial risks and uncertainties. The Company's product candidates have not been approved for sale in any jurisdiction. Among the factors that could cause actual results to differ materially from those described or projected herein are uncertainties associated generally with research and development, clinical trials and related regulatory reviews and approvals, the risk that historical preclinical results may not be predictive of future clinical trial results, and the risk that historical clinical trial results may not be predictive of future trial results. A further list and description of these risks, uncertainties and other risks can be found in the Company's regulatory filings with the French Autorité des Marchés Financiers, the Company's Securities and Exchange Commission filings and reports, including in the Company's Annual Report on Form 20-F for the year ended December 31, 2014, and future filings and reports by the Company. Existing and prospective investors are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. DBV Technologies undertakes no obligation to update or revise the information contained in this Press Release, whether as a result of new information, future events or circumstances or otherwise.
